

Hinkley Connection Project

Notice of road closure and diversion route for reinstatement works on Kennmoor Road

As part of our ongoing reinstatement works, we will be restoring a temporary access point on Kennmoor Road which was used during construction of the T-pylons in the area. The works include replacing kerbs and drainage, reinstating the existing field access, and restoring the verge.

To safely carry out these works, **Kennmoor Road will be closed between Ham Lane and Kenn Street from 22 April to 15 May.**

During this time, **Ham Lane will also be restricted to one-way traffic only, operating eastbound from B3133 North End Road towards Moor Road.** A signed diversion route will be in place for motorists, directing traffic from Moor Road to Davis Lane via B3133/Kenn Road.

We apologise for any disruption this may cause and thank you for your patience while we complete these essential reinstatement works.

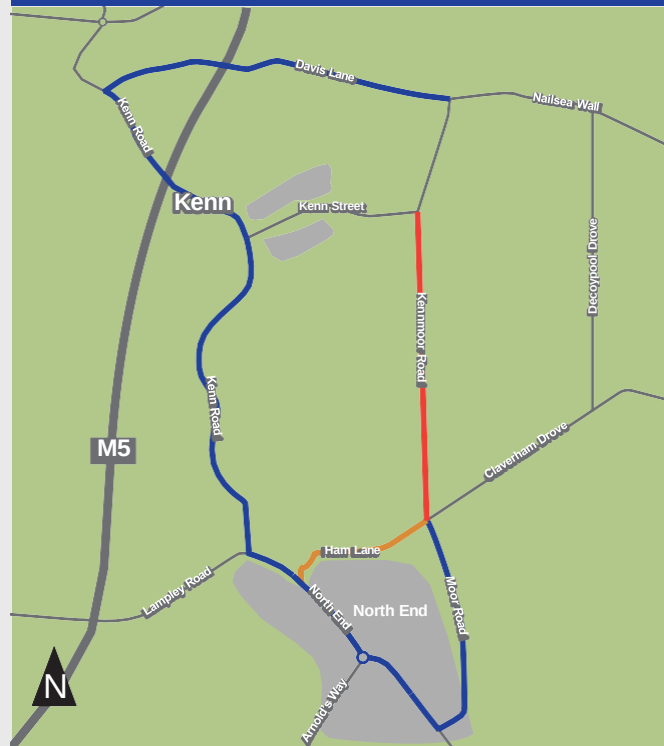

More information on the traffic management taking place in your area is available on our website:

www.nationalgrid.com/electricity-transmission/in-your-area/puxton-kenn

Key

-  Diversion route
-  Road closed in both directions
-  Restricted to one way traffic only between North End Road easterly towards Moor Road

Thank you

We know our construction activity causes local impact. We are working closely with our contractors to limit disruption as much as possible.

Thank you from everyone on the project for your patience as we continue our work to bring low carbon homegrown energy to six million homes and businesses across the UK.
